Born in Bylot Island across from Pond Inlet, grew up in Iqaluit. I took up Jewellery making some six years ago, and graduated in spring of 2000 from the College.

Most of the works I do are mainly metal jewellery, bowls, mask, Quilliq and Christmas ornaments. I also do Ivory Jewellery, brooches and rings. Carving in small stone, serpentine and Limestone. We also learn to do Lapidary work for jewellery setting, Printing making, drawing and woodcut printing making.

Outside of school and when I have time I also do sewing, parkas, fur pualuks and tents. Recently I learn how to do crochet hats made of yarns with multi-colour layers of colours similar to inlay work on metal.

Last winter I taught introductory course during the evening classes for Adult students. My hobbies are prospecting, fishing and cooking. Most times in the fall berry picking.
